

Blueballoon launch

November 3, 2011

Members of the IronDames, a group founded to help raise funds on behalf of Wellspring Halton-Peel's cancer exercise program, recently helped open the new location of pediatric care centre blueballoon health services at 6-3305 Harvester Rd.

Blueballoon provides help with ongoing difficulties related to child development, learning disabilities, neurological conditions, Attention Deficit Hyperactivity Disorder (ADHD), anxiety disorders, Autistic Spectrum Disorders and other mental health issues.

The ribbon cutting ceremony was dedicated to the memory of Kim Pace who, despite being diagnosed with terminal cancer, completed the Ironman Canada competition, was a dedicated supporter of Wellspring's exercise program and was founder of the IronDames.
